The 6:00 p.m. field trip was cancelled due to the micro-burst storm that hit the town knocking over multiple trees in the park and around the town. A short work session was held at the Town Hall instead.

The Town Council and Planning Commission members discussed concerns about the wetland areas in the river bottoms as well as sewer issues.

Architect Ray Bertoldi spoke with Randy Day today. Randy is aware of the water on his property. The group decided that the heavy rains this spring have been a blessing for the town. It is good to be reminded of how wet this property really is.

There should be no development on the south end of the property. All development should be contained to the north side.

Meeting adjourned at 6:55 p.m.

Gail Ahlstrom, Clerk/Recorder

James A. Truett, Mayor
